

# Oles Melnyk

## Full Stack Developer

 olesmelnik.pages.dev    olesmelnik24@gmail.com    +380 981750036    Ukraine, Lviv

### SUMMARY

---

Full Stack Developer with 5+ years of experience delivering scalable web and mobile solutions using React, React Native, Node.js, and Supabase. Proven track record of taking products from initial architecture to deployment, whether building from scratch or optimizing legacy codebases. I thrive in both collaborative team environments and solo projects, with a steadfast commitment to clean code, robust architecture, and high-performance results.

### WORK EXPERIENCE

---

**Freelance, Full Stack Developer** 2023 – Present

Worked directly with clients as primary developer, managing full development lifecycle from initial architecture to ongoing feature expansion. Prioritized code quality and sustainable development practices while maintaining efficient delivery timelines. Led small development teams when needed, coordinating resources to accelerate project delivery while maintaining high standards.

**CGS Team, Frontend Developer** 2022 – 2023

Progressed to Strong-Junior Developer role, working alongside Business Analysts, QA Engineers, and Project Managers in cross-functional teams. Successfully managed solo development on one project while contributing to diverse applications including e-commerce platforms, cryptocurrency wallets, and messaging systems. Gained experience across multiple project domains and development methodologies.

**Star Apps, Frontend Developer** 2021 – 2022

Began as a Web Developer specializing in React before expanding into mobile development with React Native. Delivered both web and mobile solutions, frequently working on cross-platform projects that required synchronized development across both environments. Collaborated within development teams on numerous fast-paced projects, primarily focusing on maintenance, bug resolution, and feature implementation.

### EDUCATION

---

**Ivan Franko National University of Lviv,** 2022 – 2024

MSc – Micro- and Nanosystem Engineering

**IT Step University, BSc – Computer Science** 2018 – 2022

### SKILLS

---

HTML 5, CSS, JavaScript, TypeScript, React, React Native, Redux, Zustand, Node.js, Express.js, Supabase, Firebase, Google Cloud Console, Git, Android Studio, Xcode, Apple Store, Google Play, SQL, PostgreSQL, REST API, GraphQL, Visual Studio, DEV Tools, Vim

### LANGUAGES

---

Ukrainian - Native

English - Advanced (C1)

### PROJECTS

---

Selected projects and case studies are available on my **portfolio**: [olesmelnik.pages.dev](https://olesmelnik.pages.dev)
